2016 RANGE INFORMATION

Boston Bedroom

From our "Premium cabinet collection" featuring hand made construction & finishing.

Boston furniture will bring a touch of old colonial elegance to any room. This delightful furniture is constructed from an oriental pine with Ash veneered inset panels, embellished with antiqued metal drop handles. The finish is created by applying several coats of dark lacquer by hand to build a rich patina.

Boston is hand crafted so no two pieces are ever identical, a hallmark of our "premium" collection.

History

Hand crafted in Southern China in traditional cabinet maker's workshop by skilled craftsmen as an assembled product which is then dismantled for packing. First introduced in 2011, the overall design remains the same but internal construction and packaging was improved in 2012.

New for 2016 we have introduced a complimenting double bedstead and a petite bedside cabinet.

Specification

A balancing stain is applied by hand to even out any natural wood grain and colour variation. This is followed by a dark basecoat. A further fine hand sanding process is followed by 2 further coats of semi gloss dark lacquer.

Solid wood parts are made from a prolific species of softwood of the pine family found in Southern China where it is crop grown for sustainability.

Drawer fronts are made from 18mm solid wood, drawer sides & backs are produced from 12mm solid Paulomia.

Side panels are made of 9mm Ash veneered plywood with drawer backs and bases made from 3.6mm plywood. Mirrors are plastic back coated for your safety.

All processes on this range are completed by hand to replicate a rustic finish, this is a deliberate part of the manufacturing and finishing on this furniture, it does create inconsistencies which enhance the overall appearance. No two pieces are exactly alike.

EU Timber Regulations

The EU timber regulation (EU # 995/2010) effective from 3rd March 2013 the aim of which is the stop the placement of illegally harvested timber and timber products into EU markets. As a supplier we hereby confirm that all timber used within this product range fully complies with the regulations. Copies of relevant certificates are available on request by any EU parliament member.

Packaging

Cardboard single wall outer carton. Internal plywood side & end protection. Components are paper wrapped where appropriate. Plastic fittings bag. Assembly instruction leaflet. A minimal amount of polystyrene is used for component protection. Printed carton featuring product description and barcode. Cartons also carry information relating to weight, lifting & handling and consumer guidance.

Country of manufacture; Cabinets & upholstery; China – Bedstead; Brazil

We are constantly improving specifications and packaging. Please refer to the individual product specification information on our website for detailed product information and product availability.

2016 RANGE INFORMATION

Capri bedroom collection

From our "Painted furniture collection" featuring real dovetail drawers.

Capri bedroom furniture offers a stunning contrast between solid antique wax effect pine and arctic white painted MDF completed with solid wood turned handles. This refreshing combination brings a light, airy feel to any bedroom and is accessorised with matching bookcases and a cabin bed which are ideal for guest and study bedrooms.

Capri, as part of our "painted furniture collection" also features real dovetail drawers.

History

First Introduced 8 years ago our first painted range.

Initially produced in China, production was relocated to Brazil 4 years ago to allow for improvements to overall specification and the addition of dovetailed drawers.

A new drawer front moulding was adopted in 2012. Door hinges were upgraded, along with the addition of door slam bar and metal hanging rail fixings for 2013. For 2014 the stain colour has been changed to match our Corona collections, front trims are now supplied separate to avoid damages and plastic block fixings have been used to improve assembly. Wardrobe with drawer is now supplied in 2 parts for ease of assembly and delivery.

New for 2016 are improved wardrobe interior specifications featuring colour matched MDF panels, upgraded ottoman and the addition of a petite bedside cabinet. A complimenting range of bedsteads have also been introduced.

Specification

Pine components in this range are colour matched in a resilient antique coloured tinted basecoat stain with a wax coating. Painted components are coated with a board sealer, basecoat followed by fine sanding and a lacquer top coat. Internal components are unfinished.

Solid pine panels in 16mm thickness are used in the construction of the cabinets.

MDF panels are 16mm and painted backboards 2.8mm.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

Mirrors are plastic back coated for your safety.

EU Timber Regulations

The EU timber regulation (EU # 995/2010) effective from 3rd March 2013 the aim of which is the stop the placement of illegally harvested timber and timber products into EU markets. 2016 RANGE INFORMATION

Corona bedroom & downstairs collection

From our "Pine furniture collection" featuring real dovetail drawers.

Corona pine furniture captures the essence of Mexican style furniture in a practical and affordable way, with a great selection of bedroom, dining, occasional and storage ideas.

All products in our Corona collection are very generously proportioned, offer great storage opportunities whilst the wax finish we use is practical and easy to maintain.

Metal drop handles complete the look along with optional complimenting pin detailing.

Constructed from solid pine & pine plywood, Corona, is part of our "pine furniture collection" which also features real dovetail drawers, a true sign of craftsmanship.

History

Corona is undoubtedly the UK's biggest selling design of pine furniture and is available from several suppliers. We have stayed true to the original designs and finish in many ways but have refined the construction of the products with Core's renowned level of component engineering and real dovetail drawers.

In 2012 the standard of finish sanding was upgraded to a premium level compared to other suppliers products.

In 2013 the hanging rail fittings were upgraded to metal and a centre rail support supplied for wider wardrobes.

For 2014 front frame construction was changed to improve packaging and alleviate transit damages.

There are no changes of specification from the existing product offer and only deletion is the extending dining table.

For 2016 we have introduced an enhanced bed offer and merged the most popular items from the Mexican range into the Corona collection. These include a 3 drawer bedside cabinet, 3 drawer compact chest, low bookcase, tall bookcase, 2 door cupboard & vestry cupboard.

Specification

All products in this range are colour matched for ease of selling and coated in a resilient antique coloured stain with a wax coating.

Solid pine panels in 16mm & 25mm thicknesses are used in the construction of the cabinets.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

Mirrors are plastic back coated for your safety.

EU Timber Regulations

The EU timber regulation (EU # 995/2010) effective from 3rd March 2013 the aim of which is to stop the placement of illegally harvested timber and timber products into EU markets. 2016 RANGE INFORMATION

Corona white washed bedroom collection

From our "Painted furniture collection" featuring real dovetail drawers.

Corona white washed furniture offers a fresh new variation on a proven favourite design. The combination of South American style combines effortlessly with this new finish to give this great new look.

All products in our Corona collection are very generously proportioned, offer great storage opportunities whilst the white wax finish we use is practical and easy to maintain.

Metal drop handles complete the look along with optional complimenting pin detailing.

Constructed from solid pine & pine plywood, Corona, is part of our "painted furniture collection" which also features real dovetail drawers and raised and fielded panel doors, a true sign of craftsmanship.

History

Corona is undoubtedly the UK's biggest selling design of pine furniture and is available from several suppliers however ours is unique in featuring real dovetail drawers

We have stayed true to the original designs and finish in many ways but have refined the construction of the products with Core's renowned level of component engineering.

In 2015 we introduced this popular range in whitewash finish.

New for 2016 we have introduced a complimenting range of bedsteads, a single pedestal dressing table and mirror.

Specification

All products in this range are colour matched for ease of selling and coated in a resilient whitewash primer followed by a spirit based wax top finish.

Solid pine panels in 16mm & 25mm thicknesses are used in the construction of the cabinets.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

Mirrors are plastic back coated for your safety.

EU Timber Regulations

2016 RANGE INFORMATION

Denver bedroom & downstairs collection

From our "premium cabinet collection" featuring hand made construction & finishing.

Denver furniture is unique in every way. Not only is each piece constructed lovingly by hand but it also hand finished to replicate the look of aged wood. You will find marks and joints replicated to add character that are captured within each piece of Denver furniture. The finish is created by applying coloured waxes and stains by hand followed by several coats of mellowed lacquer to build a rich patina.

Denver is hand crafted so no two pieces are ever identical, a hallmark of our "premium" collection.

History.

Introduced in January 2013 this furniture is made to replicate the look of aged wood. Originally production was based in China. From early 2014 production moved to Southern Brazil where it is hand crafted using traditional joinery shop manufacturing techniques. New additions for 2014 included a 1 drawer bedside & 2door all hanging wardrobe.

There are no changes in specification for 2016. The following items have been phased out of production DN901 – DN905 – DN913 – DN509 – DN575 & DN582.

Specification.

All components are deliberately marked and distressed before an initial coat of wood stain is applied. This is followed by an antiquing paste which is applied and rubbed into the wood by hand to produce the unique shading effect. A further fine hand sanding process, followed by a further coat of semi gloss mellow finishing lacquer completes the aged patina effect.

Solid pine panels in 16mm & 25mm thicknesses are used in the construction of the cabinets.

Drawers are made using screw and dowel joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

EU Timber Regulations

The EU timber regulation (EU # 995/2010) effective from 3rd March 2013 the aim of which is to stop the placement of illegally harvested timber and timber products into EU markets. As a supplier we hereby confirm that all timber used within this product range fully complies with the regulations. Copies of relevant certificates are available on request by any EU parliament member.

2016 RANGE INFORMATION

Dovedale bedroom collection

From our "Pine furniture collection" featuring real dovetail drawers.

Dovedale bedroom furniture captures the understated elegance of original Victorian styling, with soft moldings, delicate wooden handles and elegantly turned bun feet. The range is finished in a hardwearing mellowed lacquer finish which is both easy to clean and practical to use. Complimenting bookcases make the Dovedale range ideal for a study bedroom or guest room. Constructed from solid pine & pine plywood, Dovedale bedroom furniture, as part of our "traditionally crafted" collection so also features real dovetail drawers.

History

The Dovedale range combines all the practicality of a hardwearing, easy to clean lacquer finish with traditional Victorian styling & craftsmanship.

The Dovedale range was first introduced 7 Years ago.

In 2013 the wardrobe hanging rail fittings were upgraded to metal.

For 2014 the bookcases were resized, tallboy was added to enhance the range appeal to children's rooms. The wardrobe with drawers is now supplied in 2parts for ease of assembly and delivery.

The DD583 2 door, 3 drawer wardrobe has been phased out for 2016.

Specification

All products in this range are colour matched in a resilient antique coloured tinted basecoat with a tinted lacquer topcoat.

Solid pine panels in 16mm thickness are used in the construction of the cabinets.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

Mirrors are plastic back coated for your safety.

2016 RANGE INFORMATION

Edwardian bedroom collection

From our "Pine furniture collection" featuring cabinet made front frames.

Based on traditional Edwardian furniture designs which are generous in proportions and capture the essence of an era when traditional cabinet making techniques were first enhanced by machines to give clean lines and elegant mouldings.

The use of mirrored glass and beautifully moulded cornice enhances the imposing nature of these designs. Front frameworks are constructed using traditional cabinet makers methods to ensure an authentic Edwardian style.

History

New range for 2016.

Specification

All products in this range are colour matched for ease of selling and coated in a resilient light antique coloured stain with a hardwearing and easy to clean lacquer coating.

Solid pine panels in 17mm thicknesses are used in the construction of the cabinets.

Drawers are made using traditional doweled joints with 15mm solid pine sides and backs.

Wardrobes are fitted with raised and fielded panel doors utilising 12mm & 17mm solid pine and traditional mortice & tennon joints.

Plywood used for drawer bases and backs is made from pine to a thickness of 4mm.

Mirrors are plastic back coated for your safety.

2016 RANGE INFORMATION

Farmhouse bedroom & downstairs collection

From our "premium cabinet collection" featuring hand made construction & finishing.

Farmhouse pine replicates the look, feel and sturdiness of traditional country workshop made pine furniture from centuries ago. Every piece of wood is specially processed to ensure the original saw cuts created when the lumber is harvested are retained. Sturdy iron effect hardware compliments the products substantial credentials.

History

Initially introduced in 2014 as an assembled product, by popular demand the design was revised into flat packed form and reintroduced officially in January 2015.

There are no changes to the range specifications for 2016. Models FH705, FH709, FH711 & FH722 have been phased out of production.

Specification

A balancing stain is applied by hand to even out the natural wood variation's, this is followed by a antiquating paste which is hand rubbed into the moulding details. A further fine hand sanding process is followed by a further coat of semi gloss mellow finishing lacquer.

Solid pine panels in 16mm & 25mm thicknesses are used in the construction of the cabinets.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

2016 RANGE INFORMATION

Hamilton Ash veneer bedroom & Living & Dining collection

From our "premium furniture collection" featuring real Dovetail drawers.

Hamilton Bedroom, Living & Dining furniture is created using natural Ash & Ash veneers onto a base of solid plywood or MDF. Its simple and effective design is complimented with convex wood handles and a natural lacquer finish. A varied selection of pieces in both compact and standard sizes make it ideally suited to any type of room. Hamilton, as part of our "premium furniture collection" also features cabinets with real dovetail drawers and traditional jointed door construction.

History

The Hamilton Ash veneered cabinet range was launched in Summer 2009. Upgraded in 2011 and further upgraded in 2012 with new material specifications, new models and dovetail drawers. A Further enhancement to the product in January 2013 with improved engineering, packaging and upgraded connectors.

For 2016 we have simplified construction on many pieces, re-introduced the sideboards and added a selection of dining tables & chairs.

Specification

All products in this range are colour matched and coated in a balancing stain which is applied by hand to even out the natural wood variation's, this is followed by a clear lacquer. A further fine hand sanding process is followed by a top coat of clear semi gloss lacquer.

Ash veneered 15mm plywood panels are used in the construction of the cabinets.

Drawers are made using traditional dovetail joints with 12mm solid wood sides and backs.

Plywood used for drawer bases and backs is made from hardwood to a thickness of 3.6mm.

Mirrors are plastic back coated for your safety.

Tables are constructed using Ash veneered MDF panels and solid Rubberwood.

Upholstery meets UKFR regulations.

2016 RANGE INFORMATION

Jamestown bedroom collection

From our "Painted furniture collection" featuring real dovetail drawers.

Jamestown bedroom furniture is an elegant fusion of wood and paint which will brighten any room. Wooden parts are made from a combination of Oak veneer on to solid plywood whilst the larger painted components are made from MDF with several layers of paint to build a deep lustre. Neat real wood convex handles complete the look.

Jamestown, as part of our "painted furniture collection" also features real, traditionally crafted dovetail drawers.

History

Launched in January 2010, with slight modifications in 2011 and further upgraded in 2012 with new material specifications, new models and dovetail drawers.

For 2013 we moved production to Brazil, amended the assembly to allow for improved packing and switched to Oak from Ash for veneers, dovetail drawers were also incorporated.

For 2014 we changed the front trim to self assembly and simplified construction with moulded blocks.

Wardrobes with drawers are now supplied in 2 parts to ease assembly and delivery.

During 2015, dining and occasional items were phased out of production.

New for 2016 are improved wardrobe interior specifications featuring colour matched MDF panels, upgraded ottoman and the addition of a petite bedside cabinet. A complimenting range of bedsteads has also been introduced.

Specification

Wood components in this range are colour matched with a colour tinted sealer with a tinted lacquer top coating. Painted components are coated with a board sealer, basecoat followed by fine sanding and a lacquer top coat. Internal components are unfinished.

Wood panels are made from 16mm Oak veneered plywood with, where appropriate a 16mm skirting, edge veneered in Oak

Solid pine panels and parts in 16mm thickness are used in the internal construction of the cabinets.

MDF panels are 16mm and painted backboards 2.8mm.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

EU Timber Regulations

The EU timber regulation (EU # 995/2010) effective from 3rd March 2013 the aim of which is to stop the placement of illegally harvested timber and timber products into EU markets. 2016 RANGE INFORMATION

Quebec bedroom collection

From our "Painted furniture collection" featuring real dovetail drawers.

Quebec bedroom furniture emulates the sophistication of French design and style. This beautiful collection is made from cream painted MDF with elegantly moulded softwood trims embellished with antiqued metal handles. Quebec, as part of our "painted furniture collection" also features real dovetail drawers and traditionally constructed wardrobe doors.

History

Launched in January 2012, our French influenced painted bedroom collection was originally produced in China. In 2013 we have moved production to our established facility in Brazil. Construction was modified to improve production and packaging and to introduce dovetail drawers into the collection. For 2014 we made the wardrobes with drawers into separate base and tops for ease of distribution and delivery, supplied front trims loose to reduce the risk of damage and improved assembly using plastic blocks. There were no changes in specification for 2015.

New for 2016 are improved wardrobe interior specifications featuring colour matched MDF panels and added a complimenting bedstead to the range.

Specification

Painted components are coated with a board sealer, basecoat followed by fine sanding and a lacquer top coat. Internal components are unfinished.

Clear graded solid pine in various thicknesses is used for moulding and skirting's.

Solid pine panels and parts in 16mm thickness are used in the internal construction of the cabinets.

MDF panels are 16mm and painted backboards 2.8mm.

Drawers are made using traditional dovetail joints with 12mm solid pine sides and backs.

Plywood used for drawer bases and backs is made from pine to a thickness of 3.8mm.

Mirrors are plastic back coated for your safety.
